H. Walker be re-elected Honorary Auditor.”

Moved by Mr. Alfred S. Cross (Chairman of the Hospital) :

“That the best thanks of this Meeting be accorded to the Lord Mayor for his kindness in presiding on this occasion.”

EIGHTY-FOURTH ANNUAL REPORT

(Being the Thirty-third since the Incorporation of the Hospital).

The Chairman and Committee have pleasure in presenting their Eighty-fourth Annual Report and Statement of Accounts for the year ended December 31st, 1944.

During the past year the total number of attendances was **44,251**, including **18,331** new patients, a decrease of **4,650** on 1943. The number of operations performed was **39,262** (including **4,532** anaesthetic cases and **4,875** for the preservation of teeth), as compared with the 1943 figure of **42,481**.

These lower figures are mainly due to our present difficulties in maintaining an adequate staff to cope with the demand for treatment, and to the smaller number of students in the Hospital. During the latter part of the year, however, it was possible to obtain suitable staff for the Orthodontic Department, with the result that the attendances and treatments in this specialist department increased by **2,932**.

The Merseyside Hospitals Council during the year made a grant of £1,000 and thanks are extended to them for this very welcome financial assistance, which has enabled the Committee to make additional appointments, not only to the Orthodontic Department, but also, more recently, to the Parodontal and Anaesthetic Departments.

The Hospital Dental Aid Fund has enabled 121 patients to obtain dentures, and the Committee thank the J. R. Hobhouse Dental Aid Fund for a further grant of £550.

The Ministry of Health have appointed an Inter-Departmental Committee to consider how dental treatment can best be included in a comprehensive health service. The Liverpool Dental Hospital will probably have two primary functions: Firstly, to provide facilities and patients for the clinical training of Dental Students, for it should be realised that, as stated by the Inter-Departmental Committee, the country is short of Dental

Students, and considerably more will be required in the future. These must all be trained in the Dental Schools of Universities and in Dental Hospitals attached thereto, which have the specialised staff for this purpose. Secondly, the unique facilities of the Dental Hospitals must still continue to be available to patients. In such a comprehensive dental service, however, the Hospital would lose the contributions from patients and this would be extremely serious unless financial assistance is obtained from the appropriate authority.

In the meantime the Hospital requires all possible financial assistance and appeals for greater support of their efforts to maintain the excellent dental service it offers in this region.

Sincere thanks are expressed to those who, by subscriptions, donations and gifts, have encouraged those working for the Hospital. The following are the larger donations :—

The Merseyside Hospitals Council	£1,000	0	0
Anonymous, per J. R. Hobhouse, Esq., to the Dental Aid Fund	550	0	0
The Entertainments Committee, net proceeds of efforts	510	11	5
The Trustees of the West Derby Waste Lands ...	100	0	0
The Liverpool Council of Social Service for their assistance in many ways.			

The Committee gratefully acknowledge a legacy of £2,045 14s. 3d. from the Trustees to the late W. H. Jones.

It is recorded that Mr. L. S. Cohen, Mr. J. V. Murphy, Dr. E. L. Rubin (Hon. Radiologist), Dr. A. Bateman (Hon. Anaesthetist), Mr. A. F. Drake (Asst. Hon. Dental Surgeon), are serving with His Majesty's Forces.

Thanks are also extended to members of the Staff and Students for their work in the Hospital during the year, and to those who have assisted the Entertainments Committee.

The Committee have been pleased to co-operate with the War Office by allowing an Army Dental Laboratory to be set

up within the Hospital, and record the pleasant relationship with the Army Dental Authorities.

The Hospital, in conjunction with the School of Dental Surgery of the University of Liverpool, are carrying out an investigation into the causes and prevention of dental caries, with particular reference to the effect of the present war-time diet. This work is being done at the National Children's Home, Frodsham, and the staff of the Hospital and Students have, by the annual examination of 250 children, given a total of 640 treatments. This investigation has been made possible through the enthusiasm and generosity of Mr. J. P. Bibby and Messrs. J. Bibby & Sons, Ltd.

In conclusion, the Committee again wish to commend to the people of Merseyside the valuable services available at the Hospital and ask for greater financial support of their efforts to provide this service, which is so essential to the health of the community.

**Persons disposed to contribute by Will to this Charity
are requested to do so in the following manner :—**

I give and bequeath unto A.B. and C.D. the sum of
 upon Trust that they do pay the same
 out of my personal estate to the Treasurer, for the
 time being, of the Liverpool Dental Hospital, which
 sum of I desire may be applied towards
 carrying on the charitable designs of the Institution.
